Emma F. Fabella

emmafabella@gmail.com | 0277468071 | 09993103607

Professional Summary

Seasoned, flexible, results-oriented full-stack application developer with 16 years of experience designing and implementing innovative solutions to improve business productivity and system quality. Strong expertise in UI development, AEM (including AEM as Cloud Service), HTML5, CSS3/SCSS, JavaScript, Vue.js, REST APIs, and Git. Adept in agile development, software configuration management, and modern toolchains. Proven ability to adapt and thrive in multinational environments. Strong advocate for continuous learning, collaboration, and emerging technologies. Experience also includes freelance work and contract work across various industries.

Core Technical Skills

UI • AEM • AEM as Cloud Service • HTML5 • CSS3/SCSS • JavaScript • Vue.js • REST APIs • Git

Skills Profile

Technical Skills

- Operating Systems: Windows, Linux/Unix
- Environments: Client, Remote Desktop/Server, Cloud
- Databases: Oracle, MySQL, MSSQL, MariaDB, PostgreSQL, NoSQL (DynamoDB, MongoDB)
- Internet Tools: Chrome Dev Tools, HTML5 Boilerplate, Grunt, Fiddler, File Vault
- Testing Tools: Postman, SOAP UI, JMeter, Sahi, Selenium
- System Design Tools: Visual Studio, WikiDocs
- IDEs: IntelliJ, Eclipse, NetBeans, PyCharm, AWS Cloud9, PhpStorm
- Version Control: Git, GitHub, GitLab, SVN, CVS, Bitbucket
- Build/Deploy Tools: FileZilla, WinSCP, Jenkins, Docker, Maven, Gradle, Nexus3, JFrog
- Code Quality/Scan Tools: SonarQube, ESLint, CodeFormatter, SonarLint, PMD, SpotBugs, FindBugs, xRay, Checkmarx
- Cloud Platforms: AWS, Azure, Oracle, AEM as Cloud Service

Programming Languages & Frameworks

- Java: Spring, Hibernate, J2EE, J2SE, JSF
- JavaScript: Vue.js, Angular, React, jQuery, Google Maps API, Angular SPA
- JavaScript Testing: Karma, Jasmine, Puppeteer, Mocha
- Python: Django
- PHP: CodeIgniter, CakePHP
- SQL: Stored Procedures, Views, DDL, DML
- CSS / UI: HTML5, CSS3/SCSS, Bootstrap, Sass, Less
- CMS / Experience Platforms: AEM, AEM as Cloud Service, WordPress

Other Technologies

- Testing Types: Unit, Integration, Component, Automation
- APIs: REST APIs, SOAP, OpenAPI, Swagger
- Authentication: OAuth2, JWT, OpenID, SAML, Cookie-based
- Security: HTTPS, CORS, SSL/TLS, OWASP, Content Security Policy
- API Integrations: Workday API, Kenan API
- Search Engines: Elasticsearch, Solr
- Scripting: Bash, Shell, Perl
- Architecture: Monolith, Microservices, SOA, Serverless
- Web Servers: Nginx, Apache

Management & Leadership

Problem solving, mentorship, effective communication, risk assessment, technical interviewing.

Professional Experience

Fujitsu Global Delivery Center | Senior Developer / Team Leader | September 2023 – May 2026

Client: Fujitsu Limited and Fujitsu Global Delivery Center Project Management Team

- Defined development standards and performed proof-of-concept (POC) evaluations for new tools, technologies, and security compliance, resulting in a 20% improvement in tool integration and security compliance across the project.

- Led development teams to ensure quality and timely delivery of project objectives, achieving an increase in on-time project delivery and a 10% improvement in overall code quality through structured leadership and guidance.
- Designed and architected tools, ensuring scalability, efficiency, and alignment with project goals, leading to a 25% reduction in system downtime and a 30% improvement in system performance.
- Acted as onsite/offsite coordinator and supported project management tasks, including progress tracking and reporting, streamlining communication and reducing project delays by 20%.
- Provided technical guidance, created and assigned technical specifications, and estimated development efforts for new feature requests, increasing team productivity by 18% and ensuring that 99% of new feature requests were delivered within the stipulated time frame.

Capgemini Philippines | Senior Developer / Manager | June 2022 – December 2022
Client: National Australian Bank | Project: B&P Microservices – Digital & Transactions Banking

- Designed, coded, tested, and debugged applications following modern coding standards.
- Mentored team members on development best practices.
- Managed performance evaluations and monitored timesheets and attendance.
- Tech Stack: Azure VM, Kafka, Gradle, Git, Nabserv, Spring Boot, Mockito, Jenkins, SonarQube, ESLint, SonarLint, PMD, SpotBugs.

RCG Information Technology (Philippines), Inc. | IT Consultant | February 2021 – March 2022
Client: The Walt Disney Company | Project: Workflow Optimization

- Authored, reviewed, and maintained technical documentation.
- Developed Java services, unit tests, and database schemas.
- Led code reviews, knowledge sharing, and team onboarding.
- Implemented authentication and authorization for services.
- Handled artifact deployments via Maven and resolved Jenkins deployment issues.
- Tech Stack: Azure VM (Windows), Java, Spring Boot, Mockito, Jenkins, SOAP, REST, Workday API, Token Authentication.

Accenture | Software Development Associate Manager | May 2020 – October 2020
Client: VHI Healthcare Ireland | Project: Plan Builder

- Designed, developed, tested, and deployed AEM-based applications (including UI components with HTML5, CSS3/SCSS, and JavaScript).
- Created technical documentation and performed risk management.
- Led development, conducted code reviews, facilitated scrum meetings.
- Tech Stack: AEM, Requires, jQuery, Java, Mockito, JUnit, HTML5, CSS3, JavaScript.

Earlier Roles (2009 – 2020)

- Finastra | Expert Software Engineer (Dec 2019 – Feb 2020) – Ripple Integrator, financial API integration, mentoring.
- Accenture via Vetere Global Solutions | IT Consultant (Jun–Sep 2019) – KSA Government ESAL Factoring, front-end & QA.
- Nityo Infotech | IT Consultant (Oct 2018 – Feb 2019) – Qnect QBE, full-stack B2B/B2C insurance platform.
- Safeway Philtech Inc. | Senior Software Engineer (Jan–Jun 2018) – Production support, mentoring.
- Grundfos IS | Application Developer (Oct 2015 – Aug 2017) – Developed AEM-based corporate and e-learning websites with strong emphasis on the front-end layer. Created custom modules and OSGi components, built responsive UI using HTML5, CSS3/SCSS, and JavaScript, integrated REST APIs, and managed source control with Git. Delivered Academy platform features and SSO implementation. Applied skills: UI • AEM • AEM as Cloud Service • HTML5 • CSS3/SCSS • JavaScript • Vue.js • REST APIs • Git.
- Information Professionals Inc. | IT Consultant (Feb–Oct 2015) – Dairy Farm POS applications.
- IT Managers Inc. | IT Consultant (May–Dec 2014) – Smart Communications CRM (Java/SOAP).
- Emerio Philippines (NTT) | IT Consultant (Oct 2013 – Apr 2014) – SunGard Ambit Retail Banking.
- BDO Unibank Inc. | Programmer/Analyst / Junior Assistant Manager (Apr 2010 – Apr 2013) – Online banking features.
- LWS Media Inc. | PHP Developer (Oct 2009 – Feb 2010) – Web scraping & company website.
- IT Group Inc. | Software Engineer (Apr–Sep 2009) – Application development & documentation.

Highlighted Projects

- FUJITSU Education Solution WebiLis Solution Tools – Team Leader/Developer
- Bench Tools Developer – Team Leader/Developer
- IPKNOWLEDGE Internal Information Solution – Fujitsu – Team Leader/Developer
- National Australian Bank – Digital & Transactions Banking (2022) – Senior Developer, Kafka Microservices Integration

- The Walt Disney Company – Workflow Optimization (2021–2022) – IT Consultant, Java Microservices, Workday API Integration
- VHI Healthcare Ireland – PlanBuilder (2020) – Technical Lead, AEM Front-End (UI, HTML5, CSS, JavaScript) and Java Backend Development
- Ripple Integrator (2019–2020) – Lead Developer, Ripple API Integration for Financial Transactions
- KSA Government – ESAL Factoring (2019) – Front-End Developer, QA
- Qnect QBE (2018–2019) – Fullstack Developer for B2B and B2C insurance platforms
- Grundfos Website & Ecademy (2015–2017) – AEM-based Corporate and E-learning Site Development; custom modules & OSGi components, front-end layer (UI, HTML5, CSS3/SCSS, JavaScript), REST APIs, Git
- BDO Online Banking System (2010–2013) – Programmer/Analyst, Online Transaction Services

Education

University of the Philippines – Bachelor of Science in Computer Science

- Earned a flat 1.0 (the highest mark on UP's grading scale) in thesis.
- Achieved grades in the 1.0 range in Psychology, Behavioral Science, and other course subjects.
- Divided time between freelance work and working-student duties (Student Assistant at the Institute of Management; Online Freelancer), prioritizing freelance work for survival in some areas, while still graduating with top marks, including several 1.0s. Took accountability for less-than-perfect grades by learning non-stop after college.

The University of Western Australia – Global MBA, Batch 14 (Ongoing, 2026)

Asian Institute of Management – Postgraduate Certificate in Project Management (Ongoing Application)

University of the People – MS Information Technology, Foundational Courses only (1.89)

Siena College Taytay – High School and Grade School

Short Courses & Training

- Harvard Business School Online – Leadership, Ethics and Accountability | Open Innovation | Partially attended Negotiation Mastery
- Mini MBA – Business Essentials – International Business Management Institute (IBMI)
- University of Tokyo – Short Course in Training via Coursera
- Stanford Online – Short Courses (Online)
- Partially attended Strategic Communication
- Trainings from Udemy, Pluralsight, Microsoft, LinkedIn, Coursera

Licenses and Certifications: Oracle, AWS, GCP, Six Sigma, Databricks and Redis licenses and certifications

Honors and Awards

- Flat 1.0 in undergraduate thesis, University of the Philippines
- Graduated with Honors (younger years)
- Special Academic Awardee
- Best in Conduct with academic recognition in some subject areas
- Commended for a Work Well Done

Work Preferences

Optimal Work Environment: I thrive in a peaceful, quiet workspace where I can focus deeply on complex technical tasks. A calm environment allows me to maintain high productivity and concentration, especially during technical problem-solving or when studying.

Multitasking: I use a six-screen setup to enhance my ability to multitask and stay organized, keeping everything I need readily available for smooth workflow management.

Flexibility: I can attend the office on days with fewer workloads to collaborate with my team. I am open to more face-to-face collaboration once I complete my master's degree program. Currently, I perform best when working in a quiet, focused space. I can also work onsite if needed but prefer hybrid position.

Problem-Solving: I am usually able to deliver tasks on time but may encounter delays or discrepancies when faced with blockers such as infrastructure issues, network problems, or dependency integration challenges. These are natural occurrences in any technical project and can be mitigated with the right environment and support.
